For: UNIFORM CAVITATION FOR PARTICLE REMOVAL
Inventors: Gary W. Ferrell, John F. Schipper,
and Jagjit S. Ratra
Our ref: SEZ-022

Dear Jagjit:

The above-identified patent application was filed in the U.S. on December 6, 2005 and assigned serial number 10/559,894. Enclosed is a copy of the application as filed, together with a copy of our return post card. This application was filed without formal papers. Accordingly, enclosed are formal papers consisting of a Declaration and an Assignment for signature. It is important that the Declaration should have the same date as, or an earlier date than the Assignment. At your early convenience, please sign and date, and return the Declaration and Assignment to us for filing in the U.S. Patent and Trademark Office. Enclosed is a self-addressed and stamped return envelope.

Unless we receive a Notice to File Missing Parts from the PTO indicating otherwise, the due date for filing a late declaration is two months from the filing date, i.e. February 6, 2006 in this case, although extensions of time are available with payment of corresponding fees. There is no due date for an assignment. An assignment may be filed anytime during the prosecution of the application. The assignment may be notarized, but notarization is not mandatory.

EXHIBIT A

It is our joint duty to disclose to the Patent Office any prior art of which you are aware now or may discover subsequent to filing the application. Since the duty is a continuing duty we want to remind you to let us know if during prosecution of the application, there is any prior art which should be disclosed. If we do not hear from you, we will assume that there is no such prior art to be disclosed.

Very truly yours,

A handwritten signature in dark ink, appearing to read 'Tom' or 'Thomas', written in a cursive style.
